Sumbawa

Située entre Lombok et Flores, l'île de Sumbawa fait partie des petites îles de la Sonde, un archipel qui s'étend à l'Est de Bali.

Moins connue des voyageurs que ses célèbres voisines, Sumbawa possède pour autant des paysages variés de toute beauté, de magnifiques fonds marins et des plages qui n'ont rien à envier à celles de Lombok. Les plus belles se trouvent sur la côte Ouest, où de grandes baies de sable blanc côtoient des montagnes verdoyantes, des rizières en étages et des cascades cristallines.

Pour les amateurs de plongée et de snorkeling, Sumbawa compte des sites exceptionnels, dont l'île de Moyo, où les fonds marins sont parmi les plus riches et variés d'Indonésie, ainsi que la baie de Saleh, l'un des rares endroits au monde où l'on peut nager avec des requins baleines !

SUMBAWA DIVE TRIP

ITINERARY 13 DAYS / 12 NIGHTS

DAY 1 TRAVEL DAY

Arrive at **Sumbawa Besar Airport**, then take a short transfer to Goa Harbour for a 45-minute speedboat ride to Moyo Island. Settle in for 5 nights and unwind at the hotel – enjoy the pool, ocean, or a sunset BBQ.

DAY 2 - DAY 5 DIVING DAYS | 11 DIVES

Dive Schedule

We'll do three dives each day – two in the morning (starting around 9:00 AM) and one in the afternoon. Dive sites are close, just 15 to 30 minutes by boat. Highlights include Takat Segile Dramatic Wall, Ange's Reef, and Long Reefs – known for healthy reefs, schooling fish and clear visibility.

Land Excursion

One afternoon, we'll take a break from diving and visit Mata Jitu Waterfall – one of Sumbawa's most beautiful spots. With crystal-clear pools and lush jungle all around, it's the perfect way to wind down the trip.

DAY 6 THE WHALE SHARK BAY

Check out from Moyo Island and **head to Saleh Bay** for an overnight stay at a cozy beachfront spot. The next day, we'll set out to see the incredible whale sharks!

DAY 7 WHALE SHARKS!

Rise at 3:30 AM for a 4:00 AM boat ride to **swim with whale sharks**. Enjoy the sunrise and spend 1–2 hours with these gentle giants. Afterward, have a light morning snacks on the boat, then return to the accommodation for a full breakfast. Next, transfer to East Sumbawa with a 4–5 hour drive, stopping along the way to explore local villages and attractions.

SUMBAWA DIVE TRIP

ITINERARY 13 DAYS / 12 NIGHTS

DAY 8 - DAY 12 EAST SUMBAWA | 10 DIVES

Dive Schedule

We'll do 10 boat morning dives plus unlimited house reef dives during our stay in East Sumbawa, exploring some of the region's most unique underwater environments. The water is warm and clear, with visibility often reaching up to 20 meters.

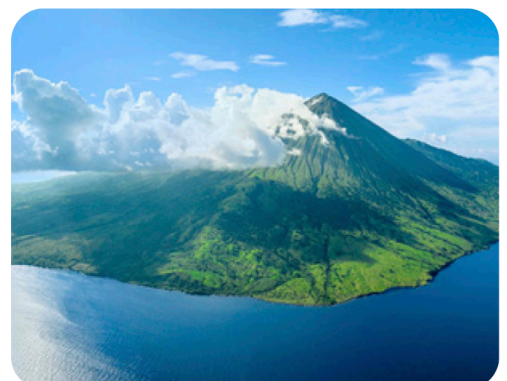

There are over 30 dive sites to choose from – including the macro-lover's dream of the house reef (locals claim it's better than Lembeh), manta encounters at nearby Gili Banta, the surreal bubbling volcanic seafloor of Sangeang, the cannon-shaped reef, and the rich biodiversity of West Komodo. You might spot everything from manta rays and reef sharks to nudibranchs, pygmy seahorses, and more.

Secret Komodo Dragon Rangers Tour

During one of our surface intervals, we'll have the chance to visit Komodo dragons – but not your typical tour. Thanks to a great relationship with the 'secret' rangers of West Komodo, we can arrange a private visit to see these incredible creatures in the wild. You'll get a rare, uncaged encounter with Komodo dragons in their natural habitat – all timed perfectly between two dives.

DAY 13 FLY OUT

Check out early morning from East Sumbawa and fly from Bima Airport (BMU) to Bali or Lombok.
